Ellis Island Passenger Search

<https://heritage.statueofliberty.org/passenger>

Ellis Island, in Upper New York Bay, was the gateway for over 12 million immigrants to the U.S. as the United States' busiest immigrant inspection station for over 60 years from 1892 until 1954. Ellis Island was opened January 1, 1892. The island was greatly expanded with land reclamation between 1892 and 1934. Before that, the much smaller original island was the site of Fort Gibson and later a naval magazine.

Castle Garden Passenger Search

<http://www.castlegarden.org>

Castle Garden has records from 11 million immigrants who came into New York City between 1820 and 1913 (Castle Garden was the name of the port at what we know as the Battery at the south end of Manhattan. The majority of the data is from 1855 to 1891 when Ellis Island was opened. As they are early records they generally only contain the name, age, occupation, and port of embarkation and the name of the ship, so you have to find the location in the country where they come from by another source.
